

Push-Type Seals Signode

Product information

Signode 114 P Push-Type seals are specifically designed for use with a RCD-1431 manual sealer, a PRHR-114 pneumatic sealer or a RCNS2-114 pneumatic sealer on 32mm Magnus steel strapping. Push-Type seals are typically used where strap is tensioned by pressing the nose of the tensioner against the seal, the overlapping flanges are specifically design to withstand higher levels of stress.

Seal Type: Push Type
Joint Type: Double Notch

Material: Steel
Marking: Logo of supplier
