

Double decking system XTRA-DECK DPA - standard set

Product information

The DPA system, like the ATD system, allows the load capacity of the van to be doubled by adding a second level by means of beams. The height of the double deck is adjustable. The beams slide into rails fixed to the walls of the van. DPA system: for fixing on the wall. The rails are fixed directly to the walls without modification. Below you may see configuration of standard setting.

Код товара	Description	Packing Qty.	Packing Qty.	Delivery time
14.5032020008F	Decking beam DPA LC 1000 daN	23	23	12
14.5032010002F	Double decking single track DPA - lenght 1785 mm	2	2	12
14.5032010004F	Double decking double track DPA - lenght 1785 mm	22	22	12
